

# Code Red Emergency Notification (Residential)

The Village of Bloomingdale has instituted the CodeRED Emergency Notification System - an ultra high-speed telephone communication service for emergency notifications. CodeRED allows us to telephone either the whole Village, or targeted areas of the Village in case of an emergency situation that requires immediate action (such as a water boil water notice, gas leak, missing child, etc.). The system is capable of dialing 60,000 phone numbers per hour. The recorded message will be delivered to a live person or to an answering machine, making three attempts to connect to each telephone number.

Bloomingdale residences listed in the white pages are included in the existing CodeRED database. If you are a resident with a non-published or unlisted phone number, or if you would like your cell phone or e-mail address added as a back-up notification:

**Please take a moment to fill in the appropriate information below to be notified by your local emergency response team in the event of emergency situations or critical community alerts.**

**\*Required fields**

**\*First Name**

**\*Last Name**
